

COMMUNITY HEALTH WORKER PROGRAM

HOW OUR CHW CAN HELP

Our CHW can bridge the gap between communities and health and social services systems. They will help navigate the health and human service system and advocate for the individual and community needs. Our CHW can provide direct services to needed resources and help build individual capacity to achieve wellness along with building community capacity.

POPULATION A CHW SERVES:

- SD Medicaid patients
- Individuals with barriers to health or social service supports
- Individuals struggling with chronic disease self-management

HEALTH SERVICES A CHW OFFERS:

- Health promotion and coaching
- Lifestyle and social assistance
- Financial aid and assistance programs
- Health system navigation
- Referrals to healthcare professionals
- Health Education
- Prescription medication affordability assistance

SOCIAL SERVICES A CHW CAN HELP NAVIGATE:

- Housing
- Home assistive devices
- Food
- State benefits
- Daycare
- Employment
- Transportation

A Community Health Worker (CHW) is a frontline public health worker who is a trusted member of and/or has an unusually close understanding of the community served.

This trusting relationship enables the worker to serve as a liaison/link/intermediary between health/social services and the community to facilitate access to services and improve the quality and cultural competence of service delivery.

- American Public Health Association, 2022
